PrePak Products IMAP POLICY Effective 4/1/2017

PrePak Products, Inc. ("PrePak"), a leading manufacturer of premium-quality physical rehabilitation exercise devices, tools and therapy massage cream. We are committed to promoting the value of our products and helping people to regain lost functionality so that they perform better. A critical component to that success is providing the highest quality information and service. We recognize that our high-quality Accounts invest time and resources to deliver an extraordinary customer experience through knowledgeable staff and company vendor presentation. To protect the investment of our high-quality Accounts and PrePak's brand reputation, we have unilaterally adopted this INTERNET MINIMUM ADVERTISED PRICE POLICY (the "Policy"). PrePak has established the Policy recognizing the fact that Accounts' or resellers' advertising and sales practices that promote PrePak's products on the internet primarily on the basis of price could be detrimental to Accounts' service and support efforts and PrePak's brand image and reputation. Such activities could also allow some Accounts or resellers to take advantage of the service and support efforts of others.

Unilateral Internet Minimum Advertised Price Policy

PrePak Products has unilaterally decided that it will not do business with any Account, as to the products covered by this Policy, if that Account advertises on the internet any MAP Product below its MAP price for sale within the United States. PrePak is confident this Policy will strengthen its product offering and benefit all of its Accounts and the end-user. Moreover, nothing in this Policy is intended to, or does, affect the price at which an Account actually sells a PrePak product. Determination of the actual sales price remains solely within the discretion and power of the Account.
