

SAFETY DATA SHEET

Product Name: FREE UP MASSAGE CREAM

(UNSCENTED) Issue Date: 03/01/18

1. Product and Company Identification

PRODUCT TYPE: MASSAGE CREAM; FOR EXTERNAL USE ONLY.

COMPANY IDENTIFICATION:

PrePak Products, Inc.
4055 Oceanside Blvd Ste L
Oceanside, CA 92056
(800) 544-7257

EMERGENCY TELEPHONE NUMBER:

Local Emergency Contact: (800) 544-7257

2. Hazards Identification

EMERGENCY OVERVIEW

Color: Off white to very light yellow

Physical State: Heavy cream

Odor: unscented

Hazards of Product: None known when used as directed

OSHA HAZARD COMMUNICATION STANDARD

This product is not a "Hazardous Chemical" as defined by the OSHA Hazard communication Standard, 29 CFR 1910, 1200.

POTENTIAL HEALTH EFFECTS

Eye Contact: May cause slight eye irritation. Corneal injury is unlikely.

Skin Contact: Essentially nonirritating to skin.

Skin Absorption: Prolonged skin contact is unlikely to result in absorption of harmful amounts.

Inhalation: No adverse effects are anticipated from inhalation.

Ingestion: Small amounts swallowed incidentally as a result of normal handling operations are not likely to cause injury; however, swallowing larger amounts may cause injury.

3. Hazardous Composition Information

COMPONENT	CAS#	AMOUNT
NONE KNOWN		

4. First-Aid Measures

Eye Contact: Flush eyes thoroughly with water for several minutes. Remove contact lenses after the initial 1-2 minutes and continue flushing for several additional minutes. If irritation, burning or harmful effects occur, consult a physician, preferably an ophthalmologist.

Skin Contact: Wash skin with plenty of water.

Inhalation: No emergency medical treatment necessary.

Ingestion: If swallowed, seek medical attention immediately. Do not induce vomiting unless directed to do so by medical personnel.

Notes to Physician: No specific antidotes. Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient.

5. Fire Fighting Measures

Extinguishing Media: Water fog or fine spray. Dry chemical fire extinguishers. Carbon dioxide fire extinguisher. Foam. **Fire Fighting Procedures:** Keep people away. Isolate fire and deny unnecessary entry. Use water spray to cool fire exposed containers and fire-affected zone until fire is out and danger of reigniting has passed. Fight fire from protected location or safe distance. Consider the use of unmanned hose holders or monitor nozzles. Immediately withdraw all personnel from the area in case of rising sound from venting safety device or discoloration of the container. Burning liquids may be extinguished by dilution with water. Do not use direct water stream. May spread fire. Hand held dry chemical or carbon dioxide extinguishers may be used for small fires.

Special Protective Equipment of Firefighters: Wear positive-pressure self-contained breathing apparatus (SCBA) and protective fire fighting clothing (includes fire fighting helmet, coat, trousers, boots, and gloves). If protective equipment is not available or not used, fight fire from a protected location or safe distance.

Unusual Fire and Explosion Hazards: Container may rupture from gas generation in a fire situation. Violent steam generation or eruption may occur upon application of direct water stream to hot liquids.

Hazardous Combustion Products: During a fire, smoke may contain the original material in addition to combustion products of varying composition, which may be toxic and/or irritating. Combustion products may include and are not limited to: Carbon monoxide, Carbon dioxide.

Product Name: FREE UP MASSAGE CREAM (UNSCENTED) Issue Date: 03/01/18

6. Accidental Release Measures

Steps to be taken if material is Released or Spilled: Contain spilled material if possible. Collect with vacuum equipment. Collect in suitable and properly labeled containers. Attempt to absorb or neutralize by adding materials such as Sand, Vermiculite, or Soda Ash. See Section 13, Disposal Considerations, for additional information.

Personal Precautions: Isolate area. Keep unnecessary and unprotected personnel from entering the area. Spilled material may cause a slipping hazard. Material becomes more slippery when wet. Use appropriate safety equipment. For additional information, refer to Section 8, Exposure Controls and Personal Protection. Refer to Section 7, Handling, for additional precautionary measures.

Environmental Precautions: Prevent from entering into soil, ditches, sewers, waterways and/or groundwater. See section 12, Ecological Information.

7. Handling, Storage and Shelf Life

General Handling: Avoid contact with eyes. Wash thoroughly after handling.

See Section 8, EXPOSURE CONTROLS AND PERSONAL PROTECTION.

Storage: Store at 45 -76 degrees F (4 – 25 C), away from heat and sunlight. Store in accordance with good manufacturing practices. See Section 10 for more specific information.

Shelf Life: The date of manufacture is on the bottom of the jar, or on the crimp of a tube –example 08230. The date of manufacture would be read -- 08= Year 2008 and 230=the 230 day in 2008. **Unopened** jars or tubes of Free Up have a shelf life of 3 years from the date of manufacture. The shelf life of an **opened** jar/tube can vary due to sanitary issues, proper closure of the jar and exposure to heat or cold, therefore should be replaced after being open for a year.

Free-Up packets are embossed on the bottom crimp of a packet. "089" would indicate the 89th day of the year. As Free-Up packets are manufactured annually packets received in 2017 would expire on the 89th day of 2020. Packets manufactured in 2018 and later will have manufactured by and expiration dates embossed on the crimp.

8. Exposure Controls / Personal Protection

Exposure Limits Component	List	Type	Value
NOT TESTED			

Personal Protection

Eye/Face Protection: Use safety Glasses

Skin Protection: No precautions other than clean body-covering clothing should be needed.

Hand Protection: Chemical protective gloves should not be needed when handling this material. Consistent with general hygienic practice for material, skin contact should be minimized.

Respiratory Protection: Respiratory protection should be worn when there is a potential to exceed the exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, wear respiratory protection when adverse affects, such as respiratory irritation or discomfort have been experienced, or where indicated by your risk assessment process. For most condition no respiratory protection should be needed; however, if discomfort is experienced, use an approved air-purifying respirator.

Engineering Controls

Ventilation: Use local exhaust ventilation, or other engineering controls to maintain airborne levels below exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, general ventilation should be sufficient for most operations.

9. Physical and Chemical Properties

Physical State:	Heavy Cream
Color:	Off-white to Very Light Yellow
Odor:	Unscented
Flash Point – Closed Cup:	No Test Data Available
Flammable Limits in Air:	Lower: No Test Data Available Upper:
Auto ignition Temperature: Vapor	No Test Data Available Not tested
Pressure:	No Test Data Available
Boiling Point (760 mmHG): Vapor	Not Applicable
Density (air=1):	No Test Data Available
Specific Gravity (H2O=1) @ 25 C	0.90 – 0.91 g/ml
Freezing Point:	Not Applicable
Melting Point:	No Test Data Available Miscible with
Solubility in Water (by weight): pH:	mechanical mixing 5.50 – 6.50
Viscosity @ 25 C:	500,000 – 700,000 cps

Product Name: FREE UP MASSAGE CREAM (UNSCENTED) Issue Date: 03/01/18

10. Stability and Reactivity

Stability / Instability: Thermally stable at typical use temperatures.

Conditions to Avoid: Avoid contact with air (oxygen). Product can oxidize at elevated temperatures. Generation of gas during decomposition can cause pressure in closed systems. Avoid moisture. Avoid direct sunlight or ultraviolet sources. **Incompatible Materials:** Avoid contact with: Strong acids, Strong bases, Strong oxidizers.

Hazardous Polymerization: Will not occur.

Thermal Decomposition: Decomposition products depend upon temperature, air supply and the presence of other materials. Decomposition products can include and are not limited to: Carbon dioxide, Alcohols, Ethers, Hydrocarbons, Ketones, Polymer fragments.

11. Toxicological Information

Acute Toxicity:

Ingestion:

Not tested

Skin Absorption:

Not tested

Sensitization:

Skin: Not tested

Repeated Dose Toxicity:

Based on available data, repeated exposure is not anticipated to cause significant adverse effects. **Chronic Toxicity and**

Carcinogenicity:

Not tested

Reproductive Toxicity:

Not tested

Genetic Toxicology:

Not tested

12. Ecological Information

NOT TESTED

13. Disposal Considerations

DO NOT DUMP INTO ANY SEWERS, ON THE GROUND, OR INTO ANY BODY OF WATER. All disposal practices must be in compliance with all Federal, State/Provincial and local laws and regulations. Regulations may vary in different locations. Waste characterizations and compliance with applicable laws are the responsibility solely of the waste generator. PREPAK PRODUCTS, INC HAS NO CONTROL OVER THE MANAGEMENT PRACTICES OR MANUFACTURING PROCESSES OF PARTIES HANDLING OR USING THIS MATERIAL. THE INFORMATION PRESENTED HERE PERTAINS ONLY TO THE PRODUCT AS SHIPPED IN ITS INTENDED CONDITION AS DESCRIBED IN THIS SDS. FOR UNUSED & UNCONTAMINATED PRODUCT, the preferred options include sending to a properly licensed and permitted landfill or incinerator, suitable for this type of product.

14. Transport Information

DOT Non-Bulk NOT REGULATED

DOT Bulk NOT REGULATED

Shipping name

Shipping class

IMDG NOT REGULATED

ICAO/IATA NOT REGULATED

This information is not intended to convey all specific regulatory or operational requirements/information relating to this product. Additional transportation system information can be obtained through an authorized sales or customer service representative, or from the agencies that govern or regulate transportation. It is the responsibility of the transporting organization to follow all applicable laws, regulations and rules relating to the transportation of the material.

Product Name: FREE UP MASSAGE CREAM (UNSCENTED) Issue Date: 03/01/18

15. Regulatory Information

OSHA Hazard Communication Standard

This product is not a "Hazardous chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

Superfund Amendments and Reauthorization Act of 1986 Title III (Emergency Planning and Community Right-to-Know Act of 1986) Sections 311 and 312

Immediate (Acute) Health Hazard	No
Delayed (Chronic) Health Hazard	No
Fire Hazard	No
Reactive Hazard	No
Sudden Release of Pressure Hazard	No

Superfund Amendments and Reauthorization Act of 1986 Title III (Emergency Planning and Community Right-to-Know Act of 1986) Section 313

To the best of our knowledge, this product does not contain chemicals at levels, which require reporting under this statute.

Pennsylvania (Worker and Community Right-to-Know Act): Pennsylvania Hazardous Substance List and/or Pennsylvania Environmental Hazardous Substance List:

To the best of our knowledge, this product does not contain chemicals at levels, which require reporting under this statute.

Pennsylvania (Worker and Community Right-to-Know Act): Pennsylvania Special Hazardous Substances List:

To the best of our knowledge, this product does not contain chemicals at levels, which require reporting under this statute.

California Proposition 65 (Safe Drinking Water and Toxic Enforcement Act of 1986)

To the best of our knowledge, this product does not contain chemicals at levels, which require reporting under this statute.

US Toxic Substances Control Act

All components of this product are on the TSCA Inventory or are exempt from TSCA Inventory requirements under 40 CFR 720.30

CEPA – Domestic Substances List (DSL)

All substances contained in this product are listed on the Canadian Domestic Substances List (DSL) or are not required to be listed.

16. Other Information

Revision: 08/12/11

Legend

N/A	Not Available
W/W	Weight / Weight
OEL	Occupational Exposure Limit
STEL	Short Term Exposure Limit
TWA	Time Weighted Average
ACGIH	American Conference of Governmental Industrial Hygienists, Inc.
WEEL	Workplace Environmental Exposure Level
HAZ DES	Hazard Designation
Action Level	A value set by OSHA that is lower than the PEL, which will trigger the need for activities such as exposure monitoring and medical surveillance if exceeded.

PrePak Products, Inc. urges each customer or recipient of this SDS to study it carefully and consult appropriate expertise, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. The information herein is provided in good faith and believed to be accurate as of the effective date shown above. However, no warranty, express or implied, is given. Regulatory requirements are subject to change and may differ between various locations. It is the buyer's / user's responsibility to ensure that his activities comply with all federal, state, provincial or local laws. The information presented here pertains only to this product as shipped.
